

Letter of recommendation

In Brno, 14th May 2013

Karina Elver
Choreographer and pedagogue

I hereby have the pleasure to confirm, that Mrs. Karina Elver during April and May 2013 worked for Ballet of National Theater Brno as guest pedagogue.

She is specialist for the famous Danish Bourneville style. Her teaching is very professional and at high international level. She holds extraordinary pedagogic abilities which made her famous and one of the most popular dance personalities. Her experiences are the result of many years of involvement in major dance companies and choreographic cooperation with world famous artists, which she have met around the great personality of August Bournonville.

I was always highly satisfied with her work and teaching. I am glad to give her my best recommendation.
